

# TransparentRETS™ Price Guide

## Hosted Pricing:

Some of the advantages to the hosted option are: we manage the server, handle all the configuration of the software, and manage all software upgrades to your site keeping you current with the latest technology, even if your MLS makes changes. See <http://www.transparent-realestate.com/> for more information on our hosted solution.

<i>ITEM</i>	<i>COST</i>
One Time Setup Fee For 1 RETS server.	\$190
Hosting & Software Lease (10,000 or less listings)	\$40/month
Ongoing Support and Upgrades	FREE
<b>Additional Options</b>	
Each additional RETS Server	\$20/month & \$100 setup fee.

## Remote Software:

This is the ideal solution for anyone already running their own server or who already has a great web hosting account and wants to have the ability to import from their RETS server into Open-Realty, without paying monthly fees.

## DIY Package:

This option is for mid to advanced users who are very comfortable with installing and modifying PHP applications on a website. With this option you are purchasing a perpetual license to use our software. but you are also then completely responsible for all configuration and setup of the software to work with your MLS RETS Server.

<i>ITEM</i>	<i>COST</i>
TransparentRETS™ addon with support for 1 RETS server. Includes 6 months of free upgrades and 5 support tickets good for 6 months.	\$395.00 one time.
<b>Additional Options</b>	
Allow import from additional RETS server.	\$150.00 ea. one time
